

**SO JUST HOW DOES THIS
REVOLUTIONARY NEW
TECHNOLOGY WORK?**

EnerLogic's patent-pending coating redirects solar and radiant energy back to their source for energy savings in every season!

Embedded in a transparent window film, it's quickly and cleanly applied to the inside surfaces of your home's windows by one of our premier Vista dealers.

No construction mess. No major disruptions. And, once the film is applied, it's as easy to clean as your windows are today.

**YOU WANT
EFFICIENT HOME,
MORE YOUR WINDOWS.**

our windows account for your annual heating and do. out energy-efficiency—and r windows must be well

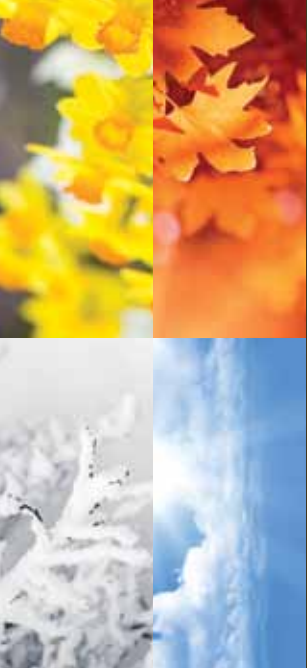

way to upgrade your son performance has been n better windows. But that's intrusive.

**ENERLOGIC® IS A LESS EXPENSIVE,
MORE CONVENIENT ALTERNATIVE TO
REPLACEMENT WINDOWS.**

Simply by having your existing windows covered with EnerLogic®'s revolutionary, micro-thin coating, your window glass can get up to 92% more insulating power!

Single-pane windows will get the annual insulating power of *double-pane* windows, and double-pane windows will get *triple-pane* insulating power.

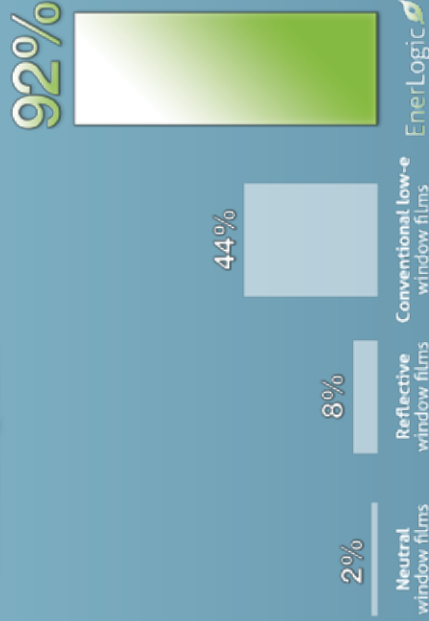

And unlike neutral or reflective window films, EnerLogic saves a significant amount of energy in winter as well as in summer.

**YEAR-ROUND
INSULATING PERFORMANCE**

EnerLogic® provides unparalleled glass-insulating capabilities—no other window film even comes close. With its patent-pending low-e technology, EnerLogic has the best insulating performance of any window film available.

Improving a window's insulating properties provides year-round energy savings. When you compare how much EnerLogic improves insulating performance to other film technologies, you clearly see that EnerLogic is in a class by itself. (1)

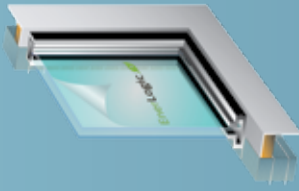

(1) Based on the percentage improvement in average annual insulating properties of 3mm glass with film as compared to the same glass without film. Product: VEP35 SR CDF

**YEAR-ROUND
INSULATING**

Single pane window
= Dual pane

Dual pane window
= Triple pane

Putting this unmatched in to work, EnerLogic® is able to existing poorly-insulating energy-efficient windows of EnerLogic gives single annual insulating performance windows—and gives double triple-pane performance.

To get such improvement transparent window film is more affordable than window less than one-third the cost

(2) Based on average window insulating properties of 3mm glass with film as compared to the same glass without film. Product: VEP35 SR CDF
